

Our Vision

Children are the reason for our existence. We want them to develop spiritually, morally, physically, emotionally, and academically. Our safe and nurturing environment is a place of acceptance and encouragement, helping each child reach their full potential.

Curriculum and Instruction

Through observation and evaluation of each child, we build upon the foundation that parents have established in the home. We lead the children through hands-on discovery into concepts of literacy, math, science, and social skills. Age appropriate activities and experiences, planned according to a calendar of themes and units, allow the child to learn by doing. Individual progress reports are given to the parents during the school year.

In our weekly music/movement class, children have fun as they explore rhythm and singing through group participation.

We also build confident minds and encourage healthy habits through our weekly physical education class.

Every week at chapel time, the children hear an exciting, child-friendly Bible lesson. They also have fun singing and learning to pray.

Other special events and invited guests are scheduled throughout the year to coincide with the unit of study.

Train up a child in the way he should go and when he is old, he will not depart from it. Proverbs 22:6
